Contact us: Helping you find the perfect plan

Open enrollment is your time to find the right dental and vision coverage for you and your family. Whether you’re looking for a plan that keeps your preventive visits affordable, covers more extensive dental needs or fits neatly into your budget, we’ve broken down everything you need to know to make a smart choice.

Important: Spirit Dental offers standalone dental insurance plans. We are not affiliated with, endorsed by or part of Medicare, Medicare Advantage or the ACA Marketplace. Our plans can be purchased separately to help you get the dental coverage you need, no matter what health insurance you choose.

How to choose the best dental coverage

At Spirit Dental & Vision, we believe taking care of your smile should be easy and affordable. Shopping for any type of insurance can be stressful, especially if it's time-sensitive.

Did you know you can buy standalone dental and vision insurance any time of year? This means you're not constrained by dates to choose the best plan.

During open enrollment, you have three primary dental coverage options to consider:

1. Bundled dental plan with health coverage

You can find these plans on the Marketplace or through Medicare Advantage. Bundling your health and dental insurance can be convenient, but it might offer limited coverage for major dental needs like implants.

2. Standalone dental plan

Standalone plans, like those offered by Spirit Dental, can allow for more flexibility and benefits, such as **no waiting periods, higher annual maximums and greater provider choice**. This means better coverage for both routine and major dental procedures.

3. Supplementing an existing plan

If you already have dental coverage, consider a secondary plan to enhance benefits and reduce out-of-pocket costs. A supplemental plan can help cover services not included in your primary plan or boost your coverage limits.

Why choose a standalone plan like Spirit Dental & Vision?

- ✓ Options for types of services covered and when your benefits begin (**implants & no waiting periods**)
- ✓ Comprehensive coverage gives you more savings on out-of-pocket expenses (**higher annual maximums**)
- ✓ Flexibility to choose your preferred provider (**freedom to choose any dentist, large PPO network with savings on covered services**)
- ✓ Buy dental insurance any time of year (**start tomorrow with next-day effective dates**)
- ✓ If your health coverage changes or drops, you won't lose your dental benefits
- ✓ Bundle dental and vision together

Dental insurance open enrollment checklist

Current coverage review

- ☐ Assess the coverage and benefits of your existing plan
- ☐ Identify any gaps in coverage or services you need

Anticipated dental needs

- ☐ Annual preventive cleanings & exams that support your oral health
- ☐ Identify any upcoming dental procedures (e.g., fillings, crowns, implants)
- ☐ Orthodontics for family members

Plan comparison

- ☐ Cost-effectiveness: Compare dental plans that fit your budget (premiums, deductibles, coinsurance)
- ☐ Flexibility with providers: Research plans that allow you to see your preferred dentist (large network, out-of-network coverage)
- ☐ Tailored for your unique needs: Align coverage with your anticipated dental needs (no waiting periods, annual maximums, dental implant coverage)

Choosing the right dental insurance during open enrollment can be a challenge with so many options available. Whether you’re looking for flexibility, cost savings or comprehensive coverage, understanding the basics of each plan type is the first step, so you can find the one that best fits your needs and budget.

Understanding types of dental plans

PLAN TYPE	FLEXIBILITY IN CHOOSING DENTISTS	COST	COVERAGE FOR OUT-OF-NETWORK CARE	WHY IT WORKS BEST
PPO	High	\$\$	Yes, but higher cost for out-of-network	Large networks, in-network savings of 25-50%, flexibility to choose dentist
HMO	Low	\$	No, must stay in-network	Ideal for people on a budget who are OK with a limited network
Indemnity	Very high	\$\$\$	Full flexibility to choose any dentist with a higher reimbursement out-of-network	Great for those who want total freedom of dentist choice
Discount	High	\$	Typically not available	Best for individuals looking for savings and not needing comprehensive coverage

Considerations when shopping for dental insurance

Dental terms to know

Premiums: The monthly cost of your plan. **Deductibles:** The amount you must pay out-of-pocket before the insurance starts covering services.

Copayments and coinsurance: Your share of the cost for each dental visit or procedure after meeting the deductible.

Annual maximums: The maximum amount your insurance will pay in a year. Choose a plan with a higher annual maximum if you anticipate needing extensive dental work.

Waiting periods: Be aware of any waiting periods for certain types of care, especially for major procedures

Dental care categories & coverage

Preventive care: Cleanings, exams, and X-rays —usually 100% coverage

Major care: Procedures like crowns, root canals and implants—often covered at 25-50%

Orthodontics: Braces, Invisalign and aligners for children—typically covered at 25-50%
